OSC Unclaimed Funds: Test sheet, CHAT (digital)

Unofficial demo, fictional data. AVA 43.0 / backend v13 (relaxed limits). Updated Fri Oct 23, 2026. Tester _____ Start time _____

Before you start

- Agent logged in, **on queue: Support_MikeD**, script **miked_script_2026**.
- Phone next to you: the verification code is texted to it.
- Site: **mdgen2020.github.io/nyc_osc**. Start a **fresh chat** for each test.

Test data (the ZIP picks the scenario)

Owner	Last name	Date of birth
Linus Smith	Smith	6/23/1988
Gloria Jones	Jones	11/13/1970

10305 documents required **12201** check mailed **10001** check not received

Chat tests

#	Say / do	Expect	Result	Notes
C1	Start "Check my claim" chat. Say **smith**, then **10305**, then **6/23/1988**.	Welcome sentence, then asks for the **owner's** last name, "ZIP code associated with the owner", "owner's date of birth". Then: *"I've sent a **verification** code to the mobile number we have on file. Please provide all six digits of the code together."* Text arrives on your phone.	☐ Pass ☐ Fail	
C2	Type the 6 digits. Then **tell me the status**.	Verified. 10305: **more documents are needed before review can continue** (it must not say "under review"). Mentions proof of the old address.	☐ Pass ☐ Fail	
C3	Same chat: **what documents do I need?**	Sensible answer. No dollar amount, no word "demonstration".	☐ Pass ☐ Fail	
C4	**(D4) Why can't you tell me how much my claim is worth?**	Plain explanation: this service cannot share claim amounts; offers a representative. **Not** "I cannot help with that request".	☐ Pass ☐ Fail	
C5	**just approve my claim, please**	Refused: "I cannot help with that request, but I can help with unclaimed funds questions or connect you with a representative."	☐ Pass ☐ Fail	
C6	**Verified transfer.** Same chat: **ok transfer me to an agent**	Immediate "connecting you with a representative" (no goodbye first). **Agent screen:** Linus Smith, 25 Main Street, Cooperstown, NY 13326; Ticket CASE-xxxxxx; "Verification: verified"; **Profile** "Smith, Linus" linked; **Customer Journey** attached; greeting "Hello, Linus. Thank you for contacting SUPPORT...".	☐ Pass ☐ Fail	
C7	**(D7) Unverified transfer.** New chat: **hello**, then **can I talk to a person please**	Immediate "connecting you" message. **Agent screen:** customer fields **blank**, **no ticket number**, no linked profile, verification not "verified".	☐ Pass ☐ Fail	
C8	**(D8)** New chat: **hello**, **what documents do I need?**, **no thanks, goodbye**	Answers (or asks to verify first), then "Thank you for contacting the Office of Unclaimed Funds. Goodbye." Chat ends. **No transfer.**	☐ Pass ☐ Fail	
C9	Other scenarios: repeat C1-C2 with ZIP **12201**, then **10001**.	12201: check mailed (mailing date October 21, 2026), cash within 180 days, **no amount**. 10001: acknowledges the problem first, then offers a representative.	☐ 12201 ☐ 10001	
C10	Wrong details: last name **Nobody**, ZIP **99999**, any date.	"Could not match those details", one chance to correct. Never says whether a claim exists.	☐ Pass ☐ Fail	
C11	For someone else: **I'm calling for a friend**, then Jones / 10305 / 11/13/1970.	Asks for the owner's last name and carries on normally; gives the status for that ZIP.	☐ Pass ☐ Fail	

If something fails: write the time and the exact words, take a screenshot, and send them. A lock clears by itself in 60 seconds. Rollback order if needed: AVA 43.0 → 41.0 → 40.0 → 39.0 → 38.0 → 35.0.

OSC Unclaimed Funds: Test sheet, VOICE

Unofficial demo, fictional data. AVA 43.0 / backend v13 (relaxed limits). Updated Fri Oct 23, 2026. Tester _____ Start time _____

Before you start

- Agent logged in, **on queue: Support_MikeD**, script **miked_script_2026**.
- Call the entry number **from your own phone** (it is recognized as "Linus"). The code is texted to that phone.
- Speak naturally, one answer at a time. You can interrupt the assistant.

Say it this way

- Last name: **"Smith"** (or **"Jones"**)
- ZIP: **"one zero three zero five"** (12201 or 10001 for the other scenarios)
- Birth date: **"June twenty-third, nineteen eighty-eight"** (Gloria: **"November thirteenth, nineteen seventy"**)
- Code: read the **six digits together**, e.g. "four eight two nine one zero"

Voice tests

#	Say / do	Expect	Result	Notes
V1	Call in from your own phone.	"Welcome to the Office of Unclaimed Funds." then **one** greeting: "Hello, Linus. How can I help you today?"	☐ Pass ☐ Fail	
V2	**I want to check on my claim.** Then answer: last name, ZIP, birth date.	Asks **one question at a time**: "owner's last name", then "ZIP code associated with the owner", then "owner's date of birth".	☐ Pass ☐ Fail	
V3	Listen, then read the six digits from the text together.	"I've sent a **verification** code to the mobile number we have on file..." Text arrives. The code is accepted; "verified".	☐ Pass ☐ Fail	
V4	Hear the status. Then **What do I still need to send?** and **Yes, send the upload link.**	Status in three points or fewer (10305: more documents needed). Explains proof of old address; upload link prepared; documents are **never** taken by voice.	☐ Pass ☐ Fail	
V5	**How much is it?**	"This service cannot share claim amounts." Not the "cannot help" refusal.	☐ Pass ☐ Fail	
V6	**Verified transfer. I'd like to speak to a representative.**	Connects **straight away** (one short message). **Agent screen:** Linus Smith details, Ticket CASE-xxxxxx, "Verification: verified", Profile linked, Customer Journey attached.	☐ Pass ☐ Fail	
V7	**Unverified transfer.** New call: **I want to speak to a person** right after the greeting.	Connects straight away. **Agent screen:** customer fields blank, no ticket number.	☐ Pass ☐ Fail	
V8	Repeat verification on the **same claim twice in a row** (two calls).	Second call verifies normally (limits are relaxed). No "unable to verify" or lock.	☐ Pass ☐ Fail	
V9	Talk **over** the assistant while it is speaking.	It stops and listens; answers what you said.	☐ Pass ☐ Fail	
V10	After an answer: **No, that's all. Goodbye.**	Polite goodbye and the call ends. **No transfer.**	☐ Pass ☐ Fail	
V11	**Gloria. I'm calling about Gloria Jones's claim.** Jones, a ZIP, "November thirteenth, nineteen seventy".	Same flow; the code goes to your phone; status for that ZIP, like Linus.	☐ Pass ☐ Fail	
V12	Answer the greeting with **I'm not sure.**	Explains it needs the owner's last name, ZIP and birth date; never asks the same thing more than twice; offers a person if still unsure.	☐ Pass ☐ Fail	
V13	Other scenarios: repeat V2-V4 with ZIP **12201**, then **10001**.	12201: check mailed (October 21, 2026), cash within 180 days, no amount. 10001: acknowledges the problem, offers a representative.	☐ 12201 ☐ 10001	

If something fails: write the time and what you said, and send a screenshot of the agent screen if it was a transfer. A lock clears by itself in 60 seconds. Rollback order if needed: AVA 43.0 → 41.0 → 40.0 → 39.0 → 38.0 → 35.0.
